What are the most important things that you learned in this course? Please reflect on the knowledge and skills you gained.

Comments
I learned that Art isn't about having a specific skillset, but just being creative and interested in what you are working on.
How to work with different materials, how to critique and view art, drawing basics, photography, relationships between form, color...
How to use different mediums to create art, photoshop, how to interpret art.

Describe how aspects of this course (lectures, discussions, labs, assignments, etc.) contributed to your learning.

Comments
Class was well structured. We would learn a topic in class and apply it on the next assignment.
Lecture slides often took up a lot of class time. Presentations were interesting and/or useful, but I wish we had more in class time to work since the assignments from this class take a lot of time to complete.

Additional comments about the course:

Comments
Having no prior experience in art, I was initially overwhelmed by the amount of work. However, after the second assignment, I developed a routine, and began to truly undrstand the coursework. Despite being a biology major, this is probably one of the most interesting classes that I've taken.
I would like if there were more opportunities to get feedback on assignments before final showings during lecture time. Most assignments had to be worked on outside of lecture time, which made it difficult to get feedback.

I would recommend this course to:

	No	Yes
Highly-motivated and well-prepared students	0.00%	100.00%
Anyone interested in the topic	0.00%	100.00%

Thinking about your time in the class, what aspect of the instructor's teaching contributed most to your learning?

Comments
Probably the demos, as they showed us how to apply the skills that we've learned.
Lectures and assignment critiques.
The slides she used were interesting and/or helpful. Otherwise, live demonstrations were the most useful.

What could the instructor modify to help you learn more?

Comments
I believe that providing more detail about some of the instructions may be useful.
Instructions on the class site could be modified to explain assignments in more detail. I often felt like I needed to ask clarifying questions in order fully understand the expectations for the assignments.

Comments
Prior to this class, I had almost zero experience in art. I joined during week 2, so I had to hustle a bit to catch up with the material. However, despite it being somewhat overwhelming, I successfully caught up. After catching up, I began to appreciate the coursework and material, and this has been one of the most interesting and transformative classes that I have taken.
I had no art background. The class has a medium to high volume of work, but it became fun.
