Describe how aspects of this course (lectures, discussions, labs, assignments, etc.) contributed to your learning.

Comments
The assignments were simple and allowed us to discover new mediums while not overwhelming us to become experts.
lectures
Our weekly lectures along with an assignment helped make the class fun yet explanatory as I tried to grasp my understanding into the arts.
The lectures were interesting but very long.
The lectures that went over ideas circulating in the contemporary world are interesting. The flexibility of the art projects allows us to develop our concepts by ourselves, which I found helpful.
i thought the weekly homeworks were a great way to test your artistic thinking and what we had just learned
went over hw in class, then short lecture, then application of what we learned

nice to have breaks in between but lectures could be a bit boring
Course was overall excellent. The only to things are that the course was entirely on Slack, We did not use canvas for anything. Our professor even insisted we communicated with him over slack and not email. As well, I do not know how I was evaluated because so grades were put in, until the end of the quarter as the final grade.
Love Prof Salavon. He is very knowledgable with this course and its topics.

I would recommend this course to:

	No	Yes
Highly-motivated and well-prepared students	12.50%	87.50%
Anyone interested in the topic	0.00%	100.00%

Thinking about your time in the class, what aspect of the instructor's teaching contributed most to your learning?

Comments
I enjoyed seeing other artists' works in our lectures
lectures
Our hands on learning where we would design our own art would have been the thing that contributed then most to my learning.
Practicing things we discussed in lectures
Professor Salavon organized the course in quite a structured approach, which exposed me to a good breadth of means to create art. I appreciate the degree of freedom he allows us to show our ideas.
i thought his feedback was great
going over homework assignments

What could the instructor modify to help you learn more?

Comments
make lectures more engaging
I wish it would have been easier to communicate. Slack was not ideal.
less time on lectures
Although I do appreciate the lectures during class time, I would make more out of the weekly class periods if there was more hands-on involvement in creating art. Going into more depth on some topics would also be fruitful.

Laveen was a great TA. She was very helpful and gave us materials.
Levine
Laveen, Our TA was very helpful especially when were unsure of the assignment being presented. She was always available outside of class time and help this class go smoothly.
Skylar Lavine. She was very kind and supportive our of independent projects.
Laveen was approachable and easy to talk to; she provided me with whatever material that I needed. Though students are encouraged to work on their ideas independently, I would appreciate it more if Laveen could be more involved in helping students develop their ideas and provide necessary critique in the process.
