We went off exercises in the book
Prof. Shin is very patient and helpful throughout the whole process! I feel so lucky to have her as my teacher!

## Was the vocabulary useful?

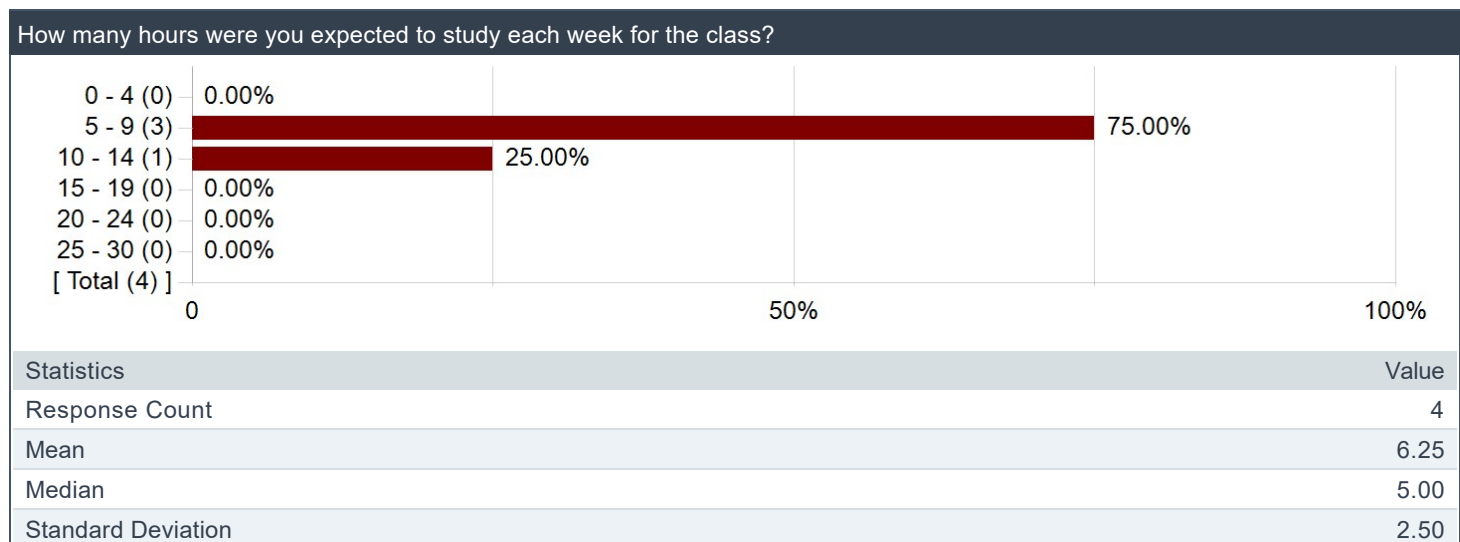

## Why?

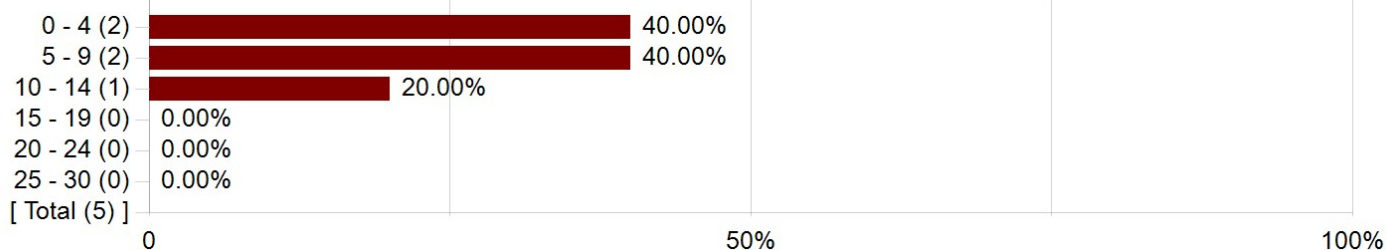

Comments
Used it a lot
very useful everyday use vocab
The vocabulary that we learned are very related to daily life conversations.
good topics, useful vocabulary for day to day conversations
We learned very useful phrases and grammar structures that I can see us using in real life, whether it's traveling to Korea or conversating with a Korean friend.
Some of the vocab is extremely useful, but other things are less so. For example, there's a decent amount of very specific vocab, like specific foods, which are not not useful, but definitely not the most useful vocab they could have included.

## Describe the format of the class (lecture, drills, etc.). Was this format productive? Please be specific.

Comments
It was structured around how each chapter in the book was divided, and as such it was very productive
lectures, speaking practice
The course content is very appropriate and interesting. We learned how to buy things, how to describe our families, how to order at a restaurant, etc., which are all super helpful. The teachers and language assistant are very fast in providing feedback, and I personally really appreciate that. The overall learning experience is perfect for me!
We had class everyday where we learned new sentence structures by using the vocabulary we are expected to learn for the lesson. We answer questions from the instructor and talk to our partners. We have about two quizzes per lesson, and this is to test that we're absorbing our vocabulary, and then an oral task and lesson test at the end of each lesson. It was stressful to have quizzes and tests every other day, but it was very helpful since it forced us to practice and study.

##### Were the oral exams challenging?

#### Why? Please be specific.

Comments
It is basically covering everything we practiced during the class. Since I attended every session and actively participated in every activity, I did not find the oral exam challenging, at all.
oral exams format was somewhat confusing, however, it was doable
We had to come up with questions and answers with our partners ourselves and were expected to speak with good pronunciation and grammar. It was challenging but helped us become more natural in speaking.

Our language assistant, Olivia Kim, is very nice and helpful. She helped me with almost everything that I was confused of.

### If there were required outside activities (i.e. foreign films or SCOLA), describe your experience.

#### Comments

We had LA sessions every two weeks where we talked to our language assistant. I think it was helpful since it serves as another opportunity for us to speak in Korean, but not as effective for our learning as the other things we do in the class.

She followed the syllabus very well so we knew what to expect from every class.

## Why?

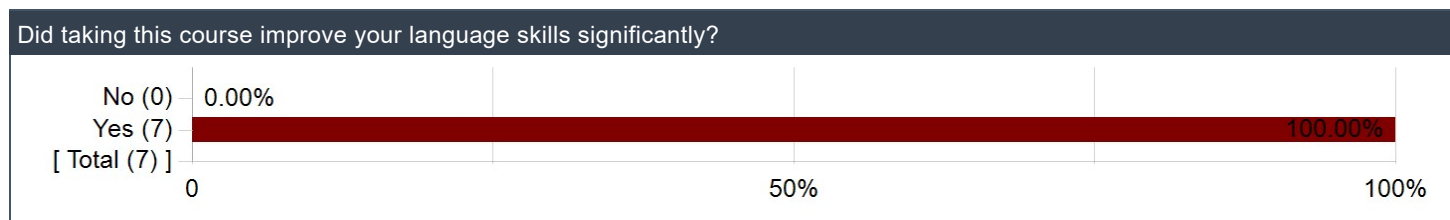

Comments
Shes very nice and even though the class itself went fast she was a great teacher
good at explaining, very helpful in and out of the classroom, very responsive to emails, organized class structure
Thank you so much, Prof. Shin! I feel so lucky to have you as my instructor, and I will continue to learn Korean in the future!
Professor Shin was a wonderful teacher! She is a true professional and a kind person overall, I highly recommend her as an instructor.
She made us feel very comfortable speaking to her and in front of the class because she doesn't make us feel bad when we make mistakes. It's also clear she cares about our wellbeing since she's always telling us to get more sleep and rest well and to have fun on the weekend. I feel that the learning environment was very safe and inclusive and I appreciated that about the class. I feel that I learned a lot of Korean and I am always being complimented on my Korean by native Korean speakers. I'm very thankful to have had such an amazing instructor to teach me Korean.

## Please provide your TA's name. Did the TA answer your questions fully and clearly?

Olivia Kim. Yes, she did.

## Did taking this course improve your language skills significantly?

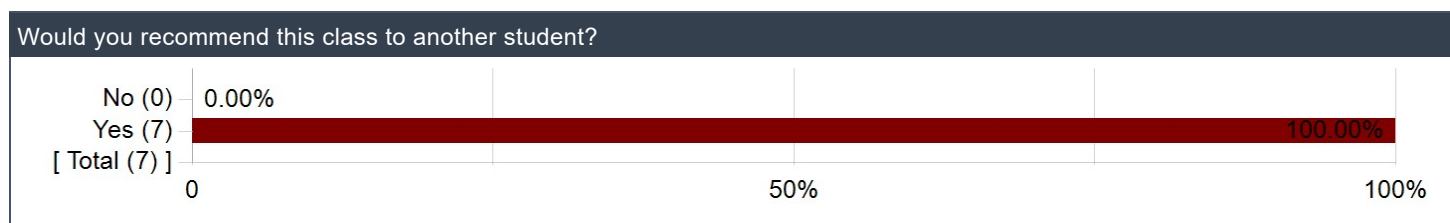

## In what way?

Comments
I think i can talk, and reading is good assuming I know the subject of the vocab
better comprehension, understanding, speaking
Every way you can think of!
I started speaking korean
I think I can hold a conversation in Korean now and understand many sentences.

## How would you improve this course?

Comments
No way. It is already perfect!
it is really fast paced, i would focus more on each chapter and grammar points
it's perfect
I don't think having oral review sessions on zoom was the best way to conduct them. I think it would have been more helpful to have them in person. I also think it would have been better to have the oral exams themselves in person. Finally, I'm not sure the format of the oral exams (given a prompt the day before and we have to write, memorize, and recite a script) was the most productive. I think it would have been better (but harder) if we had to have a short, organic conversation with the instructor on the topic.

## Would you recommend this class to another student?

## Why?

Comments
very fun class
Korean is a very interesting language and worth learning!
If you really want to learn Korean, this is the best way. I've tried Duolingo and it sucks. We learned so much Korean so fast.
