Overall, would you say you had a good instructor?

Please explain:

| Comments |

| Andrés was great at teaching the nuances of the material and has a clear mastery of Spanish. I really appreciated his encouragement for participation. |
| My instructor was overall very helpful and good at explaining hard concepts. He was engaging in class and always took the time to make sure we understood things, and was very available to meet outside of class if needed. |
| I thought Andres was a great teacher and I really enjoyed his class |
| Prof Rabinovich was great! He was super nice and helpful for classes and I could not tell that he was here for the first time this quarter. |
| hes good |
| Prof. Rabinovich was very dedicated to us learning Spanish and was helpful and prompt when I asked him questions or for help outside of class. |

Did taking this course improve your language skills significantly?

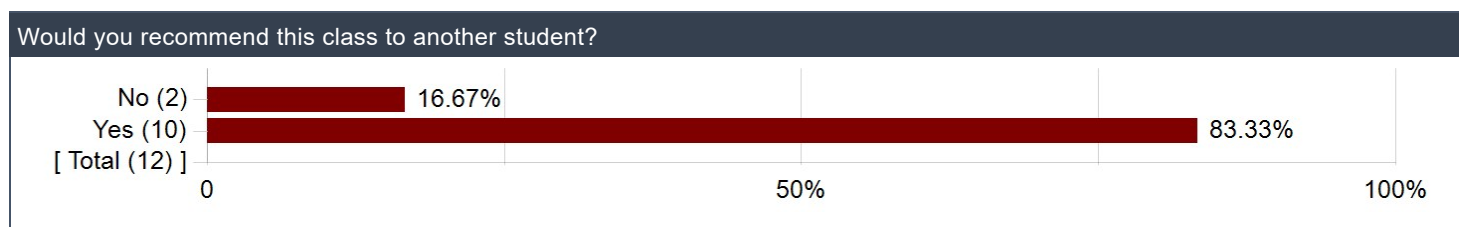

How would you improve this course?

| Comments |
|---|
| I would love to see more work outside of the textbook. |
| It was great |
| I would do less linguameetings and do similar things in class instead. |
| I would not allow students to switch textbooks halfway through taking the course. I took spanish 102 with Con Bria and as a result, most of the grammatical structures I learned in spanish 103 with Blink Learning were review. It helped cement the grammar structures that I already knew, but it felt like that wasn't how the course was supposed to go. |
| It was already good |

In what way?

| Comments |
|---|
| Better speaking |
| I learned new aspects of the Spanish language that I didn't know. |
| I learned more language. That sounds simple but I actually feel like I understand a lot of the concepts taught in this class. |
| More vocab, a more thorough understanding of grammar structures I had already seen |
| Good |

Would you recommend this class to another student?

Why?

| Comments |
|--|
| Aside from being a core requirement, the professor was great. |
| Because its good |
| In general, I think that learning a language through a University course is impossible and not a very productive use of time |
