they were good for learning spain spanish
There were simply a ridiculous amount of problems assigned each week along with tests and projects. The workload was not comparable to its title as an introduction class.
Lots of busy work

Not much just how different places have very poor accents

She did the required work and stopped lesson if there was something we were more interested in about the language that was important.
She taught the class well with the given requirements. Oftentimes we would not have the weekly schedule until the end of the week due to problems above her.
Prof was great department was so bad not much she could do about it organizationally
She's awesome

Did taking this course improve your language skills significantly?

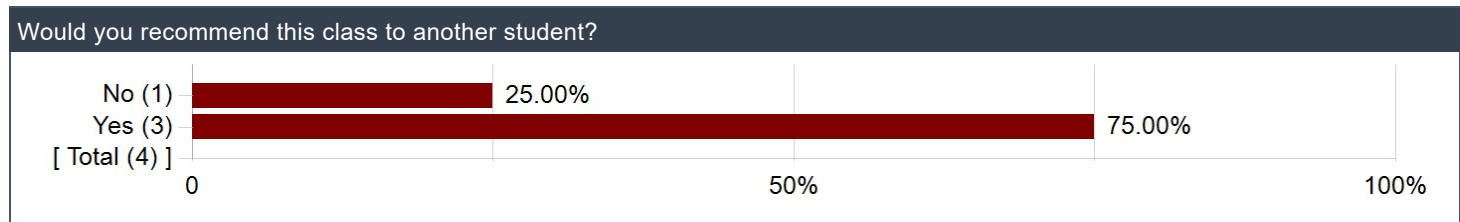

How would you improve this course?

Make it so that you can't easily click on the blinklearning quiz or so that you can click off of it without getting an automatic zero
Reduce the problem sets down from 40 questions a week to 20. Also get rid of the virtual quizzes.
Less busy work

In what way?

Comments

I do not think that i improved.

Would you recommend this class to another student?
