Were you satisfied with the text?

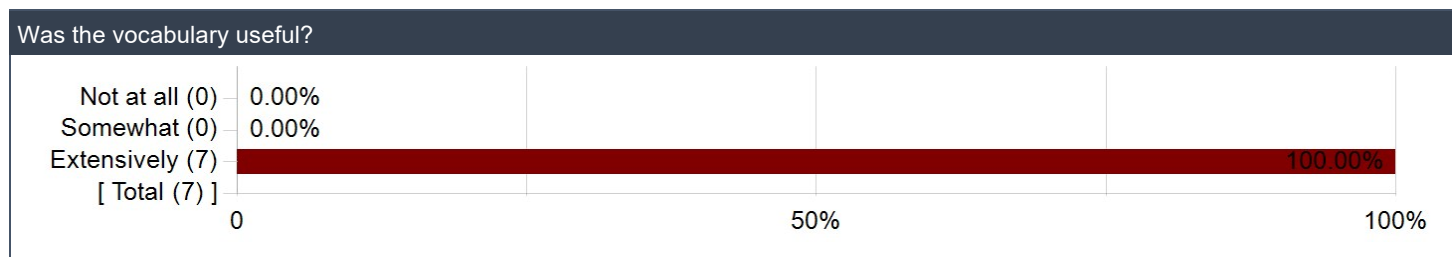

Did the instructor follow the text closely?

Explain:

Comments
ASL does not follow a textbook, but David's canvas page was extremely useful for our class!
We dont really have texts for this class its ASL but he has a schedule on canvas that was very accurate.
The professor is amazing
N/A; There is no text because it is signed
The texts were about Deaf culture/history which didn't specifically fall in line with the material we were learning, but throughout the class knowing the history and culture was very important. it was very beneficial overall.

Was the vocabulary useful?

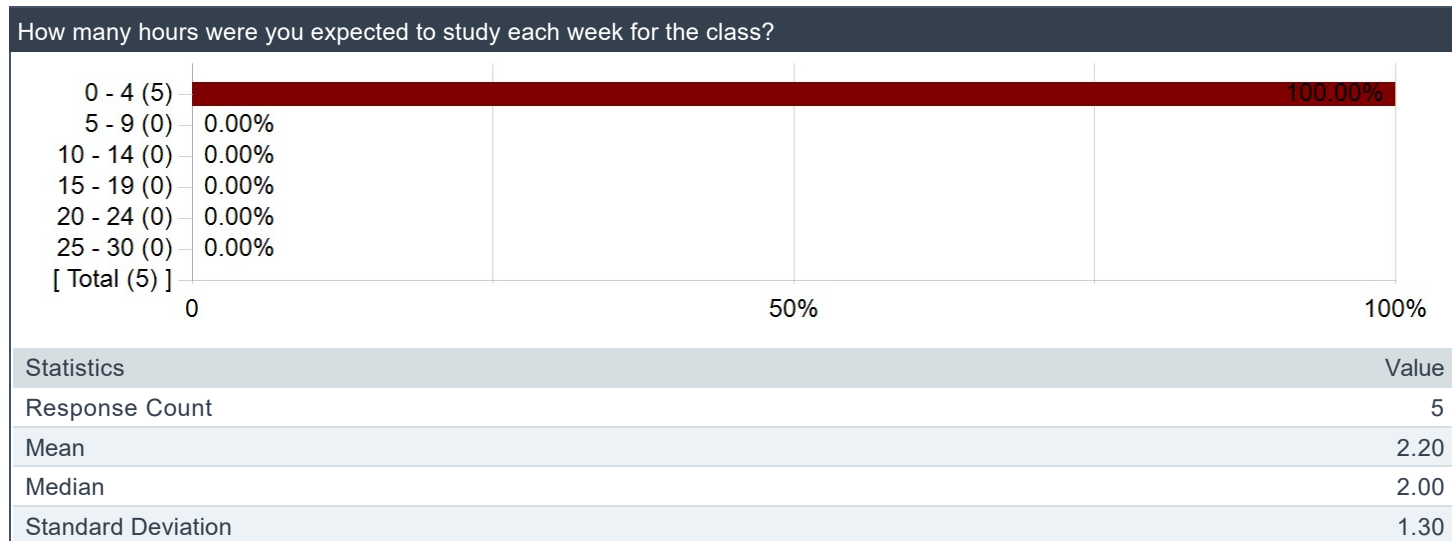

Why?

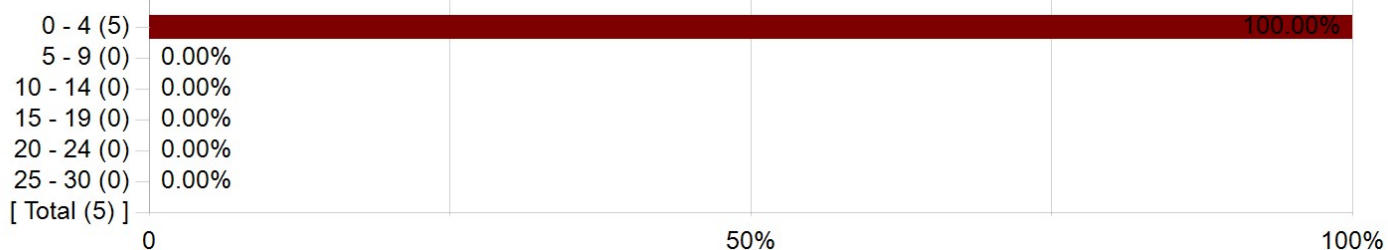

Comments	
Knowing basic ASL vocabulary is just the beginning of the wonderful language.	
We learned everyday words	

Describe the format of the class (lecture, drills, etc.). Was this format productive? Please be specific.

Comments	
On Monday's we would take some time to practice fingerspelling, which was helpful in keeping as active. Then during the class, we would learn new vocab, grammar, and other things to introduce us to the language. I found that splitting us into small groups to be a great way to become comfortable with signing.	
conversation and "lecture" (more like just teaching vocabulary)	
He would show us a video with vocabulary then have us practice	
Lecture. We learned the vocabulary and concepts and then practiced with classmates for a few minutes throughout the lecture. This was very productive and he was available for questions in both lecturing and practice which was great for clarification and understanding.

Were the oral exams challenging?

Were the oral exams challenging?

Why? Please be specific.

Comments

We didn't have ORAL exams, but we did have exams where we had to sign and interpret. These were not too difficult and were always based on what we were learning.

I had to really focus to get them right

We had to have a good grasp of the concepts, but they were online so it was less stressful and easy to practice and review beforehand.

David's canvas page was extremely helpful for our class time as that is what we used to learn in class. He always followed that page and never went ahead or fell behind, which was great!
throughout the quarter everything was structured in a way that was very easy to follow and there were many opportunities to review. The organization of canvas was also extremely helpful in the case that a class was missed and for review reasons as well.

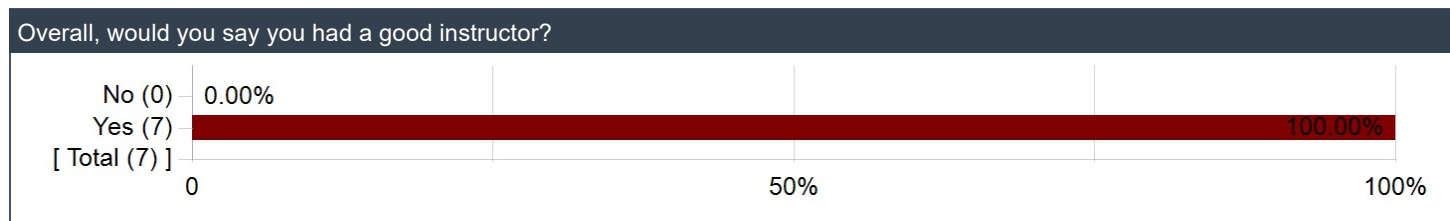

Were cultural units included?

Were they interesting or helpful?

Overall, would you say you had a good instructor?

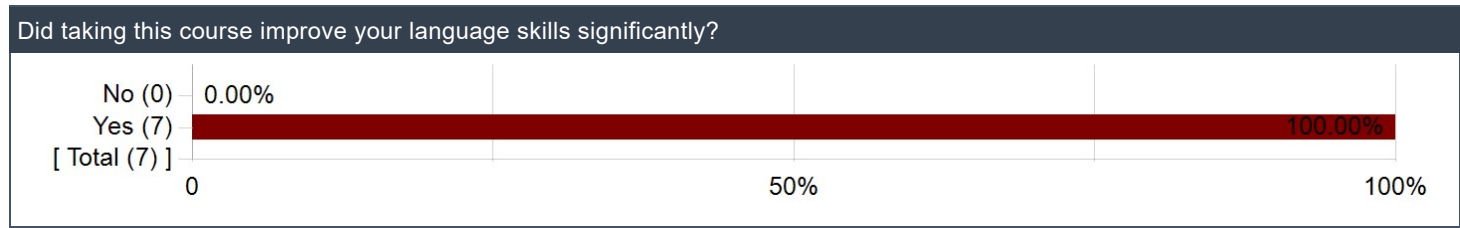

Why?

Comments
David is very organized with his teaching methods.
He was really nice and approachable about learning the language
I don't think I can express how much Prof. Reinhart really made this class as great as it was. Going to class was never something I dreaded because he had a way of teaching that made the class feel fun. I also feel like the way he allowed and encouraged us to collaborate in class made me feel comfortable reaching out to work with them outside of class as well. "good instructor" is an understatement.
