Explain:

Comments
Everything was planned out on canvas from the start, he stuck to the schedule, it was great
There was no textbook, but there were course modules that he followed closely and we were never behind in class.
There was no text
Since the class was asl there was not a set text, the reading we did was about culture rather than language acquisition

Was the vocabulary useful?

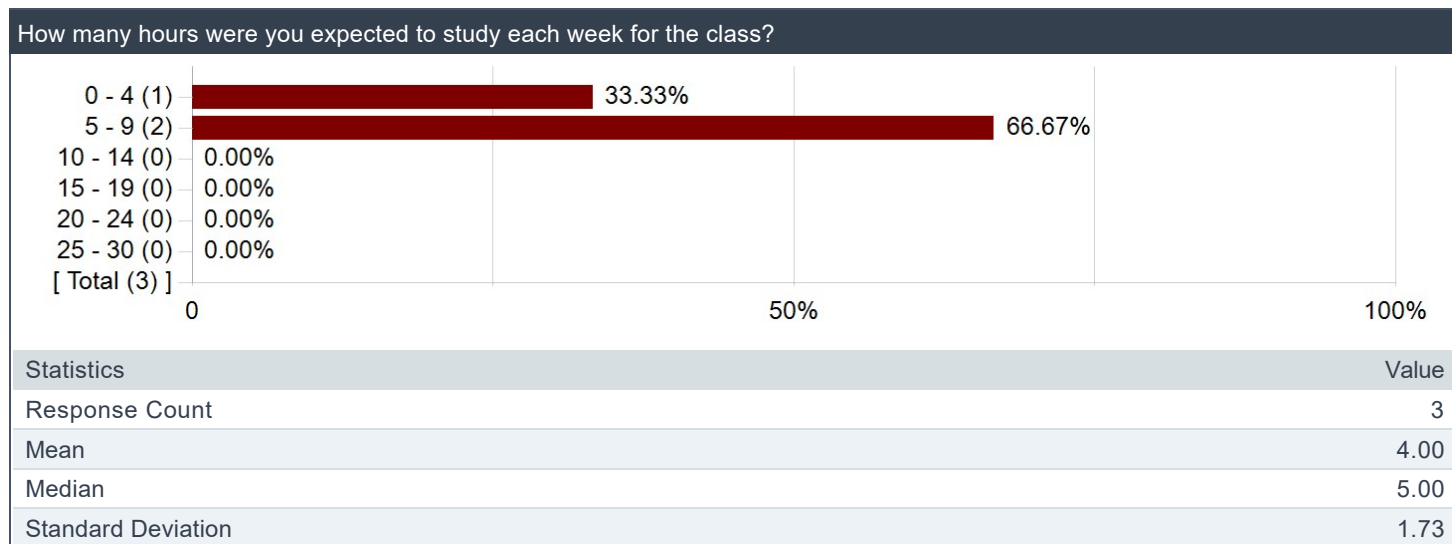

Why?

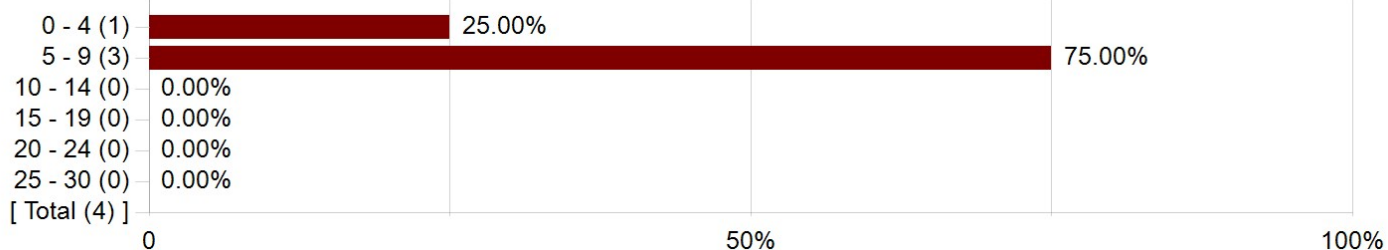

Comments
Vocabulary, as always, is extremely important for ASL
We sign the entire class and our professor is deaf so the more vocabulary you knew the better it was in class

Describe the format of the class (lecture, drills, etc.). Was this format productive? Please be specific.

Comments
He would teach us some vocab/grammar, let us practice and speak to each other
We would learn vocabulary or grammar rules and would practice the vocab/grammar with a classmate.
In-class lecture, practicing with peers was very useful in practicing and improving in signing. Working on aspects such as fingerspelling, comprehension outside of class helped focus on ensuring we were learning in the right track. Overall, the format was very useful and efficient in learning ASL.
The class started off with new vocabulary or review and we would implement that throughout the rest of the day with in group sign discussion

Were the oral exams challenging?

Why? Please be specific.

It required that you retained vocabulary and also comprehension

They were reasonable if you reviewed the vocabulary and grammar

If you went to class and practiced, you had enough preparation for the 1 on 1 exams. They weren't difficult.

If there were required outside activities (i.e. foreign films or SCOLA), describe your experience.
