## What are the most important things that you learned in this course? Please reflect on the knowledge and skills you gained.

Comments
How to successfully prove to someone that global warming is a real threat and is caused by humans.
I learned how to analyze trends to draw conclusions
Global warming and some weather stuff
I learned about the physical science undertones driving global warming as well as learning how these concepts are actually modeled.
Global warming and its causes.

## Describe how aspects of this course (lectures, discussions, labs, assignments, etc.) contributed to your learning.

Comments
I loved the flipped class environment, it's really good for learning.
Lectures and study guide
The flipped-class structure was interesting, but was very helpful during class-time as my peers and I tackled problem sets together. I would suggest a structure similar to this to continue for the future.
Flipped class. Discussion and problem solving based class.

## Additional comments about the course:

Comments
It's really chill and funny
This course is good for non-stem students. The prof is excellent and extremely skilled at his field, however, this class easier than high school class as it's designed for non-stem student core.

## I would recommend this course to:

	No	Yes
Highly-motivated and well-prepared students	9.09%	90.91%
Anyone interested in the topic	10.00%	90.00%

## Thinking about your time in the class, what aspect of the instructor's teaching contributed most to your learning?

Comments
TA was extremely helpful and understanding, assisted me in making up material I missed due to travel conflict. Made class powerpoints and review sessions clear.
Never saw the instructor.
Debarun is a really good teacher. He is able to convey the topics while also being super funny and approachable.
The TA's lectures and quizzes
Debarun was a treat in this class, and was extremely helpful in explaining concepts when anyone in our class was struggling. He did so in a way that was very respectful and mindful of each student.
Flipped Class, TA hosted problem session. Prof did a good job answering questions over email and make it clear to students the expectations and schedule.

## What could the instructor modify to help you learn more?

Comments
Honestly nothing, he was really good.
Nothing else
Nothing. It genuinely isn't an over-exaggeration when saying that Debarun did all he could to guarantee the success of each student.

Debarun
Debarun — he was the best TA I could ever ask for. I am so grateful for his encouragement and support and amazing attitude. Thanks Debarun!
Debarun Mukherjee
Debarun Mukherjee. Best teacher I've ever had here. Was so funny and nice, understood the important concept and concentrated more on those, really made sure we understood everything. Love him so much.
Debarun Mukherjee. He is really passionate about his work and I think he did a really good job in telling us stats and passing his passion.
Debarun Mukherjee. Excellent TA. Very knowledgeable. Definitely the best TA out of all 12+ sections of Global warming.

Comments
Not difficult, built on concepts from previous PHSC core requirements (natural hazards)
Not hard at all. Definitely recommend for non-majors.
I think everything is under control
Very easy class.
