The lectures were extremely helpful in understanding the readings and in writing the papers.
essay prompts were decent. lectures were solid.
There were no labs or assignments of course but having discussion facilitated how to comprehend and analyze the texts. I also appreciated the fact that there were no workshops as discussions were more than satisfactory for being successful in class
the in class discussions were very helpful

Comments
Not too difficult; little to no background.
easy, as a stem major
Relative to my background as a STEM student it is easy to be successful if you work hard to understand the texts and get extra help if you're having a bit of difficulty
Jacobsen is a fair grader, and you will quickly understand what is required for the essay assignments if you reach out for help.
