Practical
Needed to see the signed vocabulary in order to form sentences.
Communication is done primarily with vocabulary, so learning more words allowed more complex ideas to be expressed

Describe the format of the class (lecture, drills, etc.). Was this format productive? Please be specific.

Comments
Lectures and speaking in groups. Yes.
We would learn vocabulary and or grammar, then the professor would ask relevant questions in ASL. We would also have conversations in ASL with the people next to us and people around the class.
A topic was presented to us, vocabulary was demonstrated, and then used in small groups or as a large group. It works extremely well.

Comments
used conversational format
Sign Interaction exams were one on one with the professor and would last 5–6 minutes
The oral exam was fairly casual, the professor asks you questions relevant to topics discussed in the course, and at that point you usually knew how to respond. You could also formulate questions beforehand to ask as well.
The instructor expected one to demonstrate that they understood the vocabulary explained in class and could reproduce and understand it. If you paid attention in class, the oral exams were not hard.

If there were required outside activities (i.e. foreign films or SCOLA), describe your experience.

Fun and learn a lot
Very amicable professor, lots of opportunities for learning.
It is a language dramatically different to spoken language and apart from being useful, is very interesting.
